Awesome WebDev Resources

This repository curates a comprehensive list of useful websites and resources tailored for web developers.

If you like this repo, make sure to ⭐ it.

Please read `contributing_guidelines` before submitting new resources.

Enjoy!

Table of Contents

Animations

Website	Description
Animista	Create and customize CSS animations with an easy-to-use tool.
Cubic Bezier	Visualize and generate smooth cubic bezier curves for CSS animations.
Animate	Access a library of over 70 CSS animations, including fade, slide, bounce, and rotate.
Codepen Animations	Discover a collection of CSS animations created by the CodePen community.

Website	Description
WAIT! Animate	Create CSS animations with animation delays using a straightforward online tool.
Stylie	Preview and create CSS animations with an intuitive web application.
cssfx	A collection of carefully crafted CSS animations focused on simplicity and ease of use.

[back to top]

API

Website	Description
RapidAPI	Discover and connect to thousands of APIs across various categories with ease.
APIs List	Find a comprehensive directory of free APIs for different categories and uses.
Free Public APIs	A Collection of free public APIs with daily consistency and monitoring checks.
Public APIs	Explore a collection of public APIs for diverse purposes and services.
APIs.guru	Access a repository of machine-readable API definitions for various APIs.
Any-API	Browse a database of public APIs for integration with various applications and services.

[back to top]

Audio

Website	Description
Online Audio Converter	Convert audio files to various formats quickly and easily.
CloudConvert Audio Converter	Convert audio files to various formats quickly and efficiently online.
MP3 Smaller	Compress MP3 files to reduce their size without losing quality.
Audio Trimmer	Easily trim and cut your audio files online.
TwistedWave	An online audio editor for recording, editing, and mastering audio files.

Website	Description
Bear Audio Tool	Edit, cut, merge, and convert audio files directly in your browser.
Online MP3 Cutter	Cut and trim MP3 files quickly and easily online.
Audio Joiner	Join multiple audio files into one seamlessly.

[back to top]

Authentication Providers

Website	Description
Clerk	A complete user management solution for authentication, including sign-up, sign-in, and user profiles.
Firebase Authentication	Provides backend services for easy-to-use authentication, including email, password, and social logins.
Auth0	A platform that provides authentication and authorization services.
Corbado	Provides secure and easy-to-implement authentication solutions for web and mobile applications.

[back to top]

Background

Website	Description
WWeb.dev	An online tool for generating and customizing animated CSS backgrounds for websites.
BGJar	Provides customizable background patterns and textures for web design.
SVG Backgrounds	A collection of customizable SVG backgrounds for enhancing website aesthetics.
Fffuel	A platform for discovering and sharing design resources, tools, and assets.
Animated Backgrounds	Offers animated backgrounds and effects to enhance visual appeal and user engagement.
Super Designer	A curated collection of design resources, tools, and inspiration for creating stunning digital experiences.
Ibelick BG	A collection of modern background designs crafted with Tailwind CSS and Vanilla CSS.

[back to top]

Border Radius

Website	Description
Fancy Border Radius	A tool for creating and visualizing complex border-radius CSS values with live previews.
Border Radius	Generates and visualizes CSS border-radius values to create rounded corners for web elements.
Border Radius Online	A comprehensive tool for generating and previewing CSS border-radius values with advanced options.

[back to top]

Buttons

Website	Description
CSS Scan: Buttons	A collection of over 90 stylish CSS button designs that are easy to copy and use.
Butn	A free collection of CSS buttons with various styles and animations for easy customization.
ClickMinded Button Generator	Create customizable buttons with various styles and get the CSS code with this user-friendly tool.
Button Optimizer	Optimize and customize buttons with different styles and effects, generating CSS code.
HTML CSS Button Generator	Generate CSS buttons with various styles, colors, and effects for easy integration into web projects.
MaxButtons	Design and customize CSS buttons with a range of styles and get the generated CSS code.
Marko Denic Button Generator	Create and customize buttons with a variety of styles and effects, and obtain the CSS code.
Best CSS Button Generator	Generate stylish CSS buttons with various customization options and download the CSS code.
CSS Buttons	A collection of customizable CSS button designs and styles with easy-to-copy code.
Ibelick Buttons	A collection of Tailwind CSS buttons designed to enhance your website's look.

[back to top]

CDN

Website	Description
Staticfile	A CDN hosting a wide range of static files for web development, including libraries and frameworks.
BootCSS CDN	A CDN offering fast and reliable access to popular front-end libraries and frameworks.
CDNJS	A popular CDN hosting a large collection of open-source JavaScript libraries and CSS frameworks.
jQuery CDN	The official CDN for jQuery, providing reliable access to jQuery libraries.
JSDelivr	A free, fast, and reliable CDN providing access to a wide range of open-source libraries and assets.
Statically	A CDN that provides fast and reliable delivery of open-source assets and static files.
UNPKG	A fast, global content delivery network for everything on npm, providing easy access to packages.

[back to top]

Check Boxes

Website	Description
CSS Scan: CSS Checkboxes Examples	A curated collection showcasing creative and customizable CSS styles for checkboxes.
CSS Checkbox Generator	A tool for generating and customizing CSS checkboxes with various styles and effects.

[back to top]

Cheat Sheets

Website
HTML Cheat Sheet
CSS Cheat Sheet
Tailwind CSS Cheat Sheet
Sass Cheat Sheet

Website
Bootstrap Cheat Sheet
JavaScript Cheat Sheet
TypeScript Cheat Sheet
ES6 Cheat Sheet
React Cheat Sheet
Angular Cheat Sheet
Vue.js Cheat Sheet
Node.js Cheat Sheet
Express Cheat Sheet
SQL Cheat Sheet
MongoDB Cheat Sheet
PostgreSQL Cheat Sheet
PHP Cheat Sheet
JSON Cheat Sheet
HTTP Status Code Cheet Sheet
Python Cheat Sheet
GraphQL Cheat Sheet
Git Cheat Sheet
Bash Cheat Sheet
Regex Cheat Sheet
Emmet Cheat Sheet

[back to top]

Code Editors

Website	Description
CodePen	An online community for testing and showcasing user-created HTML, CSS, and JavaScript code snippets.

Website	Description
VS Code Dev	A lightweight version of Visual Studio Code that runs in the browser for quick code editing tasks.
CodeSandbox	An online code editor and prototyping tool for building web applications in a sandboxed environment.
StackBlitz	Online IDE for web applications with starter templates and real-time collaboration features.
OneCompiler	Online compiler and IDE to compile and execute code snippets in various programming languages.

[back to top]

Coding Challenge Platforms

Website	Description
DevChallenges	Coding challenges to improve and showcase your skills.
Frontend Mentor	Real-world front-end challenges to improve coding skills.
Frontend Practice	Practice building projects with real-world front-end challenges.
CSS Challenges	Practice CSS through a series of design challenges.
100 Days CSS	Learn CSS by completing one challenge every day for 100 days.
JS Challenger	Practice JavaScript coding challenges and improve your skills.
LeetCode	Platform offering coding challenges and interview preparation resources.
HackerRank	Coding challenges and competitions to help improve coding skills and prepare for interviews.
CodeChef	A competitive programming platform that hosts contests and practice problems.
Coding Ninjas	Platform offering coding courses and practice problems.
Codewars	A platform for coding challenges and improving programming skills through practice.
CodinGame	Learn programming through fun and interactive coding games.
Coderbyte	Coding challenges and interview prep for developers.

Website	Description
Exercism	Practice coding and receive mentorship on various programming languages.
Codeforces	A site for competitive programming contests and practice problems.
Codementor Projects	Projects for developers to build, improve skills, and get feedback.
Codepip	Learn to code by playing games and solving puzzles.
Edabit	Solve bite-sized coding challenges to practice and improve your skills.
JSRobot	Solve puzzles by writing JavaScript code to control a robot.
Divize	Solve coding challenges and learn new concepts through practice.
Code Combat	Learn programming through engaging and interactive games and challenges.
CodeGym	Online Java programming course with coding challenges and games.
CodeAbbey	Solve programming problems and challenges for various skill levels.

[back to top]

Colors

Color Palettes

Website	Description
Coolors	A color scheme generator that helps you create beautiful palettes.
Color Hunt	A curated collection of color palettes for design inspiration.
ColorSpace	Create and inspect color gradients, with the ability to generate CSS code.
Realtime Colors	A platform that provides live, dynamic color displays or updates in real-time.
UiGradients	Browse and download a collection of beautiful color gradients.
AiColors	A tool that generates color palettes using AI, allowing designers and developers to explore unique color schemes for their projects.
0to255	A tool for finding lighter and darker color variations.
Open Color	A color scheme optimized for UI design.

Website	Description
ColorMagic	Generate harmonious color schemes.
Flat UI Colors	A collection of color palettes inspired by flat UI design.
Happy Hues	A curated collection of color palettes with examples.
Khroma	AI-based color palette generator.
Color Claim	Curated color palettes by Tobias van Schneider.
Color Palettes	A variety of color palettes for design inspiration.
Culrs	A simple way to find and use color palettes.
Eva Colors	A color system for products.
Farbvelo	A tool for generating color palettes.
Muzli Colors	Discover beautiful color combinations.
Paletton	Color scheme designer for creating color palettes.
Pigment by ShapeFactory	A tool for generating harmonious color palettes.
Picular	A color search engine using images from Google.
Color-Hex	A tool for finding hex color codes and their variations.
Color Adobe	A comprehensive color tool by Adobe for creating, exploring, and saving color palettes.
HTML Color Codes	A resource for finding and using HTML color codes in web development.
Colors Inspo	A collection of color palettes and gradients for design inspiration.
Colorion	Color inspiration and tools for designers.
Gradientos	A tool for generating beautiful CSS gradients.
Egg Gradients	A collection of colorful gradients for use in design projects.
Branition Colors	A collection of color palettes inspired by brands.
Colourco.de	A tool for creating and sharing color palettes.
Flat UI Color Picker	A tool for finding flat UI colors.

Website	Description
Conic Style	A tool for creating and visualizing conic gradients for your web projects.

Color Tools

Website	Description
WebAIM Contrast Checker	For evaluating and ensuring adequate color contrast in web design to improve accessibility.
Coolors Contrast Checker	Check color contrast for accessibility.
Who Can Use	A tool to check color contrast accessibility for different visual impairments.
CSS Gradient	An online tool for easily creating and generating CSS gradient source code.
W3Schools Color Picker	An online color picker tool with various functionalities.
Color Thief	A tool for extracting dominant colors from images.

[back to top]

CSS Filters

Website	Description
Just Code Today - Filters	Collection of CSS filters and effects for websites.
CSS Filters	Gallery of CSS filter effects with live previews and code snippets.
CSS Filter Generator	Tool for creating and applying CSS filters with live previews.
CSS Color Filter Generator	Tool to generate CSS color filters.
CSS Filter	Simple tool for applying and previewing CSS filters.
Instagram.css	Collection of Instagram-like CSS filter effects.

[back to top]

CSS Finder

Website	Description
CSS Stats	Analyzes stylesheets, providing insights and statistics on CSS properties and selectors.
CSS Scan	Inspects and copies CSS styles from any website for easy design replication.

[back to top]

CSS Games

Website	Description
CSS Battle	A fun game where you write CSS code to replicate target images as closely as possible.
CSS Diner	A fun and interactive way to learn how to select elements on a web page using CSS.
CSS Grid Garden	A web-based game that teaches you how to use CSS Grid to create complex grid layouts.
CSS Grid Attack	An interactive game to learn CSS Grid.
Flexbox Froggy	An interactive game for learning CSS Flexbox.
Flexbox Defense	A web-based game for learning CSS Flexbox through interactive gameplay.
Flexbox Adventure	A fun way to master Flexbox through an adventure game.
Knights of the Flexbox Table	A set of challenges using Flexbox properties to position and align elements in a medieval-themed game layout.
Flexbox Zombies	An interactive game where you learn Flexbox by battling zombies.

[back to top]

CSS Generators

Website	Description
Copy & Paste CSS	Collection of CSS styles for buttons, shadows, color palettes, etc.
CSS Portal	CSS-related resources, tutorials, and tools.
CodePen	Online community for HTML, CSS, and JavaScript code snippets.

Website	Description
10015.io	Essential tools for web development.
Unused CSS	Various CSS generators in one place.
WebCode Tools	Collection of web development tools and utilities.
EnjoyCSS	CSS3 code generator for text effects, gradients, and buttons.
Code Magic	CSS code generator for visually creating complex CSS.
CSS Generator	Tools for generating CSS code, including gradients and shadows.
Front-End Tools	Curated list of tools and resources for front-end developers.
HTML-CSS-JS	Tools and generators for HTML, CSS, and JavaScript.
Toptal CSS3 Maker	Generate CSS3 code for various effects and styles.
Angry Tools	Various CSS generators and tools for web development.
Layout It!	Design web layouts visually with CSS Grid.
Glassmorphism CSS Generator	Generate CSS for glassmorphism effects.
CSS Generators	Collection of CSS generators for various effects.
WebCode CSS Generator	Generate CSS code for various elements and effects.
CSS Generator	Generate CSS code with an easy-to-use interface.
CSS3 Generator	Generate CSS3 code for various styles and effects.
CSS Generator PL	A tool for generating various CSS styles and effects.
LazyCode	contains a collection of CSS generators for free
CSS Formalize	A CSS tool/framework for effortless customization of native HTML forms.
Clippy	A tool for creating and customizing CSS clip-path shapes.

[back to top]

Design Inspiration

Website	Description

Website	Description
Awwwards	Recognizes top web designers, developers, and agencies.
Best Website Gallery	Showcases the best websites for design inspiration.
Dark Mode Design	Curates dark mode design examples for inspiration.
Minimal Gallery	A curated collection of beautiful & functional websites for design inspiration.
A Fresh Website	A curated gallery of out-of-this-world design inspiration from across the web.
Refero Design	Showcases a curated collection of exceptional websites and UI elements designs.
Stacksorted	A collection of beautifully designed UI elements for web projects.
Seesaw	A platform showcasing the latest web design trends and examples.
Webframe	Discover and compare over 1500 website designs.
SiteInspire	Showcases the finest web and interactive design.
Godly	Curated gallery of landing page designs for inspiration.
Landings.dev	Collection of landing pages for inspiration and learning.
Landingfolio	Curated collection of landing pages for design inspiration.
Landingly	The ultimate inspiration source collections for landing pages.
Land Book	Gallery of the best landing page designs by type and industry.
Page Collective	Curated collection of website designs and templates.
Httpster	Showcase of web designs and trends.
Dribbble	Platform for designers to showcase their work.
One Page Love	Collection of one-page website designs.
Behance	Online portfolio platform for creative work.
Codrops	Collection of design tutorials and web design inspiration.
Browsing Mode	Curates a collection of unique and creative websites for inspiration.
Landing Love	A showcase of beautifully designed animation websites.
Lapa Ninja	A curated gallery of the best landing pages for design inspiration.

[back to top]

Dev Tools

Website	Description
SmallDev.Tools	Collection of simple, handy tools for developers.
BeautifyTools	Online tools to beautify and minify code.
Transform Tools	Tools for transforming code snippets.
Code Beautify	Online tools for code beautification and conversion.
Free Formatter	Collection of free online formatting tools.
JSONing	Collection of free online JSON tools.
OverAPI Developer Tools	Aggregated collection of useful developer tools.
OnlineTools	Various online tools for web developers and designers.
Node.js (V8) – inspector Manager	A streamlined extension for V8 JavaScript debugging with pluggable DevTools and multi-session debugging management.

[back to top]

Email Service Providers

Website	Description
SendGrid	Cloud-based SMTP provider for reliable email delivery.
Mailgun	Email automation service for sending, receiving, and tracking emails.
SMTP2GO	Reliable SMTP service with advanced reporting and analytics.
Supabase	Serverless functions for sending emails, integrated with database and authentication services.

[back to top]

Fonts

Website	Description
Google Fonts	Vast library of free and open-source fonts.
Font Squirrel	Download free and premium fonts.
DaFont	Browse and download a massive collection of free fonts.

Website	Description
1001 Fonts	Large collection of free fonts.
Befonts	Free fonts for designers and developers.
Fontesk	Free fonts for personal and commercial use.
Fontshare	Free fonts service from ITF.
Type Scale	Tool for generating modular type scales.
Adobe Fonts	Vast library of high-quality fonts.
FontMirror	Free fonts for download.
FontSpace	Discover and download fonts for various uses.
FFonts	Collection of free and commercial fonts.
Font Fabric	Unique and high-quality fonts.
Urban Fonts	Browse a wide range of free and commercial fonts.
Fonts Bunny	Free fonts for web and print projects.
Fonts2U	Download free fonts and font families.
MyFonts	Extensive collection of commercial fonts.
IconPark	Open-source icon library.
Brick	A collection of unique and stylish fonts.
CDN Fonts	A free platform to download or use fonts directly via CDN.

Font Pairing

Website	Description
Fontpair	Discover and pair complementary fonts.
Fontjoy	Generate font pairings based on style preferences.
MixFont	Visualize font pairings in real time.
Monotype Font Pairing	Interactive font pairing tool.

[back to top]

Form

Website	Description

Website	Description
Formspree	A form backend service providing API, and email service for HTML & JavaScript forms.
Formie	A form builder for easy form creation that also handles the backend for your forms.

[back to top]

Hosting

Free Hosting

Website	Description
GitHub Pages	Websites hosted directly from your GitHub repository.
Netlify	Simple workflow for building high performance sites and apps.
Vercel	Best developer experience with a focus on end-user performance.
Firebase	Build and run successful apps with Google's backing.
GitLab Pages	Static websites directly from a GitLab repository.
Surge	Simple, single-command static web publishing.
InfinityFree	Fully featured free website hosting with PHP, MySQL and no ads.
000webhost	Zero cost website hosting with PHP, MySQL, Cpanel & no ads.
Cloudflare Pages	JAMstack platform for deploying websites with free unlimited bandwidth.
ByetHost	Provides Free & Premium hosting service with no ads including PHP, MySQL, FTP & more.

Paid Hosting

Website	Description
AWS	Global cloud-based products and services to scale and lower IT costs.
DigitalOcean	Cloud computing services with predictable pricing and robust documentation.
Heroku	Cloud platform as a service supporting several programming languages.

Website	Description
Render	Unified cloud to build and run all your apps and websites with auto deploys from Git.
Stormkit	Manage frontend infrastructure integrating with your git flow.
Supabase	Open source Firebase alternative with a Postgres Database.
Hostinger	Affordable web hosting with 24/7 live support and a user-friendly interface.
DreamHost	Reliable web hosting with 100% uptime guarantee and solid support.

[back to top]

Icons

Website	Description
FontAwesome	Comprehensive library of scalable vector icons.
Ionicons	Beautifully crafted open-source icons for web and mobile.
Boxicons	Customizable vector icons for web and app development.
Phosphor Icons	Minimalist, clean, and customizable icon library.
Flaticon	Largest database of free vector icons.
IconBuddy	Diverse selection of customizable icons and icon packs.
MingCute	Variety of cute and stylish SVG icons.
Google Fonts Icon	Collection of icons from Google Fonts.
Devicon	Icons representing programming languages and tools.
Icon-sets	Collection of icons for designers and developers.
Line Awesome	Customizable PSD icons available in two styles.
Simple Icons	Lots of SVG icons for projects.
Bootstrap Icons	Free, high-quality icon library from Bootstrap.
Freeicons	Large collection of premium and free icons.
Icons8	Free design elements like icons and images.
Lordicon	High-quality, open-source animated icons.
React Icons	High-quality icon library for React projects.

Website	Description
UXWing	Free icons for websites with commercial use.
Animated Fluent Emojis	Animated emojis for web projects.
CSS.gg	Minimalistic, customizable CSS icons.
Feather Icons	Beautifully designed open-source icons.
Heroicons	Versatile SVG icons for web applications.
Iconfinder	Vast library of icons for various needs.
Iconhub	High-quality icons for different purposes.
Tabler Icons	Free, open-source icons for web applications.
Vertex	Range of icons for various uses.
Eva Icons	Beautifully crafted open-source icons.
Evil Icons	Simple and clean set of SVG icons.
Free3DIcon	Free, beautiful, trending 3D icons.
Icon-Icons	Extensive library of icons.
Iconoir	Modern aesthetic open-source icons.
Lucide	Enhanced fork of Feather Icons.
Remix Icon	Open-source neutral-style system symbols.
The Noun Project	Icons and photos for various uses.
Iconsax React	Comprehensive library of React icons.
Octicons	GitHub’s icon library.
Radix Icons	Crisp open-source icons for projects.
3D Icons	Free, beautiful, trending 3D icons.
SVGMix	A collection of free SVG icons for various uses.
Free Icons	Free icons library for different projects.
Iconmonstr	Simple and free icon library.
Lineicons	Set of modern, line-style icons.
SVGrepo	A large repository of free SVG icons.
Iconic	Customizable icon library with various styles.

Website	Description
IcoMoon	Custom icon sets and font creation tool.
Unicons	Collection of high-quality icons from Iconscout.
HolaSVG	Curated SVG icons for web projects.
Fontello	Custom icon font generator.
Fontastic	Create icon fonts from your SVGs.
Iconspedia	Extensive library of icons for different needs.
Flowbite Icons	Icons for use with the Flowbite UI library.
CSS Icon	Collection of CSS-based icons for web design.
Icônes	Versatile collection of free and customizable icons.
Iconduck	A free resource offering open-source icons and illustrations.

Favicons

Website	Description
Favicon.io	Easy favicon creation and customization.
Real Favicon Generator	Generate favicons for all platforms.
XIcon Editor	Online favicon editor and generator.
Favicon.cc	Create and edit favicons online.
Favicon Generator	Tool to generate favicons for websites.

[back to top]

Illustrations

Website	Description
Blush	Create custom illustrations from curated collections.
unDraw	Free customizable illustrations library.
DrawKit	High-quality vector illustrations.
Freepik	Vast library of free vectors and illustrations.
Glazestock	High-quality illustrations and vector graphics.
ManyPixels	Royalty-free illustrations gallery.

Website	Description
Reshot	Free, handpicked icons and illustrations.
Storyset	Customizable illustrations for projects.
UI Store	Free design resources for UI/UX.
Awesome Illustrations	Curated free illustrations list.
Craftwork	High-quality illustrations and assets.
Free SVG Illustration	Free SVG illustrations for various uses.
Get Illustrations	Premium illustrations for web and apps.
Humaaans	Mix-and-match people illustrations.
Open Doodles	Free, sketchy illustrations.
Pixeltrue	High-quality free illustrations.
Skribbl	Hand-drawn illustrations for projects.
Absurd Design	Unique, hand-drawn illustrations.
Icons8 Illustrations	Diverse library of illustrations.
Artify Illustrations	High-quality Figma illustrations.
Artify Vector Illustrations	Vector illustrations for projects.
Cocomaterial	Modern, free illustrations.
Iradesign	Free and customizable illustrations.
ThemeIsle Illustrations	Free illustrations for various uses.

[back to top]

Images

Website	Description
Unsplash	High-quality, royalty-free images contributed by photographers worldwide.
Pixabay	A large collection of free images, videos, and music available for commercial use.
Pexels	Free stock photos and videos with a simple search and download process.
Pxfuel	Offers high-resolution free stock photos for personal and commercial use.

Website	Description
Librestock	Aggregates free stock photos from multiple sources.
Visual Hunt	A vast collection of high-quality free stock photos.
Free Photos	Provides a variety of free, high-resolution stock photos for commercial use.
Picjumbo	Free stock photos for personal and commercial use in various categories.
SplitShire	Free stock photos and videos for personal and commercial projects.
StockSnap	Free high-resolution photos with new content added regularly.
Picjumbo	Free stock photos for personal and commercial use across various categories.
Life of Pix	Free high-resolution photos with a focus on nature and urban themes.
Flickr	Many photos are free under Creative Commons licenses, though not all.
Pikwizard	Thousands of free stock photos and videos across various categories.
Rawpixel	Mix of free and premium images focusing on high-quality and unique stock photos.

Image Tools

Website	Description
WebResizer	Resize and compress images online with customizable settings.
TinyPNG	Compresses PNG and JPEG images to reduce file size without noticeable quality loss.
Compressor.io	Compresses JPEG, PNG, GIF, and SVG files while preserving image quality.
Trimage	A cross-platform tool to optimize and compress images, focusing on PNG and JPEG formats.
Compress-Or-Die	Offers powerful compression for JPEG, PNG, and GIF images with advanced settings.
JPEG Optimizer	Compresses and optimizes JPEG images for reduced file size and faster loading.
Image Compressor	Provides easy-to-use tools for compressing and optimizing various image formats.
Squoosh	A tool to compress and optimize images for web use.

[back to top]

JS Libraries

Animation Libraries

Library	Description
CSShake	A library for adding shake animations to your CSS elements.
Animate.css	A popular library of ready-to-use, cross-browser animations for your web projects.
Anime.js	A lightweight JavaScript animation library for animating CSS properties, SVG, DOM attributes, and JavaScript objects.
GreenSock (GSAP)	A robust JavaScript library for creating high-performance animations that work in every major browser.
Magic Animations	A collection of CSS3 animations with a magical touch.
Hover.css	A collection of CSS3 powered hover effects for links, buttons, logos, and more.
AniJS	A library to enhance your web design with animations without the need for coding.
Mo.js	A motion graphics library designed to create delightful animations.
Velocity.js	A fast animation engine with the same API as jQuery's $.animate() and supports CSS transitions, color animations, and SVG.
Popmotion	A powerful JavaScript library for creating animations and interactions.
Snap.svg	A JavaScript library for working with SVG, including animations and graphics.
Framer Motion	A library for creating complex animations in React with ease.
Auto Animate	Add smooth animations to your web apps with minimal setup.
SwiperJS	A modern touch slider with a wide range of features and smooth animations.
Motion One	A new animation library built on the Web Animations API for tiny size and huge performance.
countUp.js	Animate numerical values by counting to them.
Odometer	A JavaScript and CSS library for smoothly transitioning numbers.

Library	Description
dynamics.js	Create physics-based animations with a JavaScript library.
elevator.js	A “back to top” button with an elevator music feature for smooth scrolling.
theatre	An animation library for high-fidelity motion graphics and intricate movement.
snabbt.js	Fast animations with JavaScript and CSS transforms.

[back to top]

Audio Libraries

Library	Description
Howler.js	A JavaScript audio library for the modern web, providing powerful audio playback and control.
Tone.js	A framework for creating interactive music in the browser with a wide range of audio features.
Audio.js	A simple and flexible JavaScript library for embedding and controlling audio on websites.
Wavesurfer.js	An audio waveform visualization and audio player library for the web.
Pizzicato.js	A library that simplifies the creation and manipulation of sounds with the Web Audio API.
Meyda	An audio feature extraction library for JavaScript that works in the browser and Node.js.
Audiolib.js	A powerful audio processing and manipulation library for the web.
ThreeAudio.js	An extension of the Three.js library for integrating 3D audio in web applications.

[back to top]

Authentication Libraries

Library	Description
Passport.js	Middleware for Node.js that simplifies the implementation of authentication strategies in your application.
NextAuth.js	Authentication for Next.js applications with built-in support for various providers.

Library	Description
Auth.js	A flexible and easy-to-use authentication library for modern web applications.
Satellizer	An AngularJS authentication library for handling social login integrations and user authentication.

[back to top]

Color Libraries

Library	Description
Chroma.js	A versatile JavaScript library for color conversions and manipulation.
TinyColor	A small, fast JavaScript library for color manipulation and conversion.
Color.js	A color conversion and manipulation library for JavaScript.
Please.js	JavaScript library for creating random pleasing colors and color schemes.
React Color	A collection of color pickers built for React.
React Colorful	A tiny color picker component for React and Preact apps.
ngx-color	A collection of color pickers for Angular.
Vue Color	A collection of color pickers for Vue.js.
Vue2-Simple-Color	A simple color picker for Vue.js.
Open Color	An open-source color scheme optimized for UI design, can be used in SASS.
Colord	A tiny JavaScript library for high-performance color manipulation and conversion.
D3-Color	Color spaces and color manipulation for D3.js.

[back to top]

Email Libraries

Library	Description
EmailJS	Send emails directly from client-side JavaScript with popular email services and templates.
Nodemailer	Node.js module to send emails using SMTP or other transport methods.

Library	Description
Gmail API	Access Gmail features to programmatically send and manage emails.
SMTPJS	Free service to send emails using JavaScript and SMTP without a backend server.

[back to top]

File Libraries

Library	Description
FileSaver.js	Saves files on the client-side in a web browser.
Dropzone.js	Lightweight library for drag-and-drop file uploads.
FilePond	Flexible and customizable file upload library with support for image previews.
Fine Uploader	Comprehensive file uploader with extensive features.
Blueimp File Upload	jQuery plugin for file uploads with support for multiple file selection.
Uppy	Modular file uploader with support for resumable uploads and multiple integrations.
react-dropzone	React component for handling drag-and-drop file uploads.
ngx-file-drop	Angular component for drag-and-drop file uploads.
ng2-file-upload	Angular file upload library with support for multiple files and progress tracking.

[back to top]

Form Libraries

Library	Description
Parsley	JavaScript form validation library.
FormValidation	A validation library for forms.
Formik	Build forms in React, with validation.
Formly	Angular dynamic forms library.
Vue Formulate	Forms and validation for Vue.js.

[back to top]

Icon Libraries

Library	Description
FontAwesome	Comprehensive library of scalable vector icons.
Ionicons	Beautifully crafted open-source icons for web and mobile.
Boxicons	Customizable vector icons for web and app development.
Material Icons	Google's Material Design icons for easy integration.
Feather Icons	Beautifully designed open-source icons.
Heroicons	Versatile SVG icons for web applications.
Lineicons	Set of modern, line-style icons.
Simple Icons	Lots of SVG icons for projects.
Phosphor Icons	Minimalist, clean, and customizable icon library.
Eva Icons	Beautifully crafted open-source icons.
Iconmonstr	Simple and free icon library.
Remix Icon	Open-source neutral-style system symbols.
Tabler Icons	Free, open-source icons for web applications.
React UseAnimations	Animated icons and illustrations for React.
Iconsax React	Comprehensive library of React icons.
NGX Icons	Angular library for scalable icons.

[back to top]

Image Libraries

Library	Description
Glide.js	A responsive and touch-friendly JavaScript slider for creating image carousels.
Vanilla LazyLoad	A lightweight, dependency-free lazy loading library for images and other content.
PhotoSwipe	A JavaScript image gallery for mobile and desktop with touch gestures.
LazyLoad by Tuupola	A fast and lightweight lazy loading library for images and iframes.

Library	Description
LightGallery	A powerful and lightweight JavaScript image and video gallery plugin.
PhotoSwipe	A JavaScript image gallery with touch gestures for mobile and desktop.
Fancybox	A flexible and responsive lightbox script for displaying images, videos, and more.
React Photo Gallery	A responsive and flexible photo gallery component for React.
React Image Gallery	A flexible image gallery component for React with various customization options.
React Lightbox	A lightbox component for React to display images in a modal view.
ngx-gallery	A highly customizable image gallery component for Angular applications.

[back to top]

Scroll Animation Libraries

Library	Description
